

The Writing Made Simple (WMS) Popsicle Stick Spacer was created to enhance the Writing Made Simple tablets and dry erase boards. Junction of Function designed the word spacer to be translucent so that children can see through it.

The “cropped kids” are printed on the top of the word spacer. They align with the designated writing lines which are the Harry Head Line, Sherry Shoulder Line, Barry Belly Line, and the Terry Toe Line.

Instructions:

Encourage the youngster to use the popsicle stick after each word the child writes. Their spacing will be neat and their printing out of sight!
